The Meteorological Magazine

Vol. 69

(Fifteenth of the New Series)

1934

Published by the Authority of the Meteorological Committee. Air Ministry. Meteorological Office.

LONDON
PRINTED AND PUBLISHED BY HIS MAJESTY'S STATIONERY OFFICE
To be purchased directly from H.M. STATIONERY OFFICE at the following addresses:
Adastral House, Kingsway, London, W.C.2; 120 George Street, Edinburgh 2;
York Street, Manchester 1; 1 St. Andrew's Crescent, Cardiff;
80 Chichester Street, Belfast;
or through any Bookseller

ILLUSTRATIONS

	PAGE
Kew Observatory from the Air	*Frontispiece*
Average pressure distribution, Dec., 1933 to Jan., 1934	5
Gibraltar: from the air over neutral territory to its north... ...	*facing* 10
Eddies as shown by streamers of great length in the Bay of Gibraltar at 800 feet, Wind 60°...	*facing* 11
Stamps commemorating the first stratosphere balloon flights ...	*facing* 29
Waltham Cross, Meteorological Chart, Sept., 1891	45
Glass-sheathed thermometers in screen	*facing* 57
Thermograms, London, Jan. 23rd–24th, 1934	59
Anemograms, London, Jan. 24th, 1934	60
Isopleths of differences between 15h and night minimum temperatures at Larkhill	63
Atmospheric disturbance illustrated by a working model	*facing* 81
Plan diagram of the jets and disc of model in position	82
Barograph with yearly chart	*facing* 92
Refraction at sea on the way to Nain, Labrador	*facing* 93
Section of cold front passing over Aboukir, Mar. 8th–9th, 1932	96
Microbarograms, Aboukir, Heliopolis, Ismailia and Ramleh, Mar. 8th–9th, 1932	97
Diagram showing approximate actual water content of air	114
Frequencies of relative humidity	115
Strange sunset effect	119
Halo phenomena, Whit Sunday, 1934	121
Halo complex in Holland, May 26th, 1934	122
Diagram showing progress of drought, Nov., 1932, to May, 1934... ...	134
Rainfall, percentage of average, Jan., 1933, to May, 1934...	136
An unusual sunset	146
Kew Observatory, minute by minute rain-gauge record, July 18th, 1934	158
Rainfall intensity, Kew Observatory, July 18th and 22nd, 1934	159
Height and temperature of tropopause at Calgary and Goderich	167
Anemometer record, Amman, Mar. 4th, 1934	169
Diagram showing positions of meteorological stations in the near East ...	187
Autographic records, Shaibah, May 14th, 1934	189
Tephigram, Aug. 12th, 1932	206
Wind pressure on shed and model	209
Balloon carrying radio-sonde before being released at Wellington, New Zealand	*facing* 229
Isopleths of differences between 15h. and night minimum temperatures at Catterick	234
Diagram for giving formulae connecting T–M, T and T–D	234
Rate of rainfall, Kew Observatory, Oct. 6th, 1934	236
Squall cloud, Oct. 4th, 1934	*facing* 238
Luminous night clouds, 0h. 30m., July 2nd, 1934	*facing* 239
Waved alto-cumulus, Aug. 18th, 1934	*facing* 239
Dust-devils, Aug. 10th, 1934 and Sept. 6th, 1934	*facing* 253
Audibility of firing, H.M.S. *Valiant*, Sept. 27th, 1934, afternoon	254
Audibility of firing, H.M.S. *Valiant*, Sept. 27th, 1934, evening	255
Diagram showing velocity of sound according to temperature and wind component towards north-east	257
Mean cloudiness and effective nebulosity, Goff's Oak, Sept., 1934 ...	261
Temperature of Loch Maree and Loch Ness...	279
Anemogram, Heliopolis, June 13th, 1934	281
Hygrogram and Thermogram, Heliopolis, June 13th, 1934	282
